

Connect and Advance Medical Marijuana Analysis (CARMMA) Database

Collaboration brings research advancements to understanding the impact medical marijuana use has on clinical outcomes.

The Consortium launched the **Connect and Advance Research for Medical Marijuana Analysis (CARMMA) Database** to connect researchers, physicians, and industry collaborators with the goal to increase and accelerate medical marijuana research.

The CARMMA Database can be accessed via the Consortium's website at mmjoutcomes.org/carmma.

Procedures & Guidelines

Eligibility and Joining CARMMA

- Researchers, providers, and industry collaborators if they meet the criteria below can submit their information to the CARMMA Database.
- All interested collaborators must submit their information for review via the CARMMA submission form located at mmjoutcomes.org/carmma.

For Researchers

- Researchers must be affiliated with a university as a faculty, post-doc, or student.
- Researchers must be able and willing to collaborate on medical marijuana research in Florida.

For Providers

- Providers must be a physician certified to recommend medical marijuana to patients in Florida through the Office of Medical Marijuana Use.
- Providers should indicate the following in the expertise section when submitting their information to the CARMMA Database:
 - Interest in collaborating as a medical expert, a recruitment site, a survey taker, etc.
 - Expertise in a specific health condition if applicable

For Dispensaries and Other Industry Collaborators

- Dispensaries and other industry collaborators are defined as any private or public organizations who are willing to collaborate on medical marijuana research in Florida.
 - Collaborations are defined as any specific expertise or products that could be used in medical marijuana research including product discounts and offerings, recruitment opportunities, assistance with clinical trials, etc.

- Dispensaries and other industry collaborators shall not use CARMMA as an advertising outlet in the form of flyers and marketing images.
- Dispensaries and other industry collaborators will be allowed to use their standard logo as the image for their CARMMA entry. Any promotional/advertisement materials will not be allowed for the image.

Consortium's Role

- The Consortium does not endorse or take responsibility for any collaborations, businesses, products, etc. from the CARMMA Database.
- The Consortium reserves the right to review submissions and to remove any researcher, provider, dispensary, or industry collaborator at any time for any reason including the violation of the procedures and guidelines listed in this document.
- The Consortium will request updated information from each collaborator on a yearly basis and reserves the right to remove any collaborator that does not respond to this yearly request.
